MEDUTECH is a modern Czech company located in the city of Brno, a region recognized for its advanced technological background. The company focuses on the development, production and integration of audiovisual applications and solutions for the medical industry. In addition, we also distribute medical grade IT equipment.

With an experienced team, MEDUTECH can offer not only its own innovative product portfolio but also tailored solutions for customization and system integration.

The Artemis System, as MEDUTECH's flagship product, allows all doctors to watch live even the most detailed scenes of surgeries and share them in real time or any time after. Surgeries are recorded in high quality and can be cut and edited very easily.

#### **Connecting the World with Live Surgery**

The world is connected by technology. Spread your medical knowledge effortlessly with Artemis. Share the best of your skills and approach with colleagues, students or experts.

MEDUTECH is certified in accordance with ISO 13485.
